## 📁 WORK EXPERIENCE

### Operations Support IT Specialist Expedient

Memphis, TN

Achievements/Tasks

- Proactively monitored and **debugged** operational systems to detect and resolve service-impacting events, ensuring uninterrupted IT performance and web server uptime
- Built a strong foundation for efficient **web application development** by refining technical skills using tools such as a data protection manager, a VM management platform, and firewall/VPN interfaces across **Linux** and **Windows** environments
- Streamlined client support by processing and prioritizing service requests, enhancing **problem-solving** and **communication** abilities crucial for collaborative web development projects.

### Information Technology Intern

ALSAC/St. Jude Children's Research Hospital

Memphis, TN

Achievements/Tasks

- Trained through topic-based sessions conducted by information technology executives
- Learned about the industry and gained invaluable experience working on IT related projects using **Agile**, **Tableau**, **C++**, and **CyberSecurity**
- Brainstormed and cultivated innovative ideas that expanded how information technology was delivered to the St. Jude customers, ranging from employees to patient care
